

IE expo China 2023

April 19-21, 2023

Shanghai New International Expo Centre (SNIEC)

www.ie-expo.com

Asia's Leading Trade Fair for Environmental Technology Solutions: Water, Waste, Air and Soil

Offering an effective business and networking platform for Chinese and international professionals in the environmental sector, IE expo China has kept the key role for environmental technology and industrial innovation in Asia for over 20 years.

In 2023, IE expo China will take place from April 19 to 21 and grow to 200,000 square meters, thus spanning all 17 halls of the Shanghai New International Expo Centre (SNIEC). The event will be focusing more than ever on circular economy and climate change: the arrival of the "Double Carbon Era" caused the demand for green technologies to leap up, strongly supported by the Chinese government and the continuous entry of top global enterprises.

EXHIBITOR PROFILE

IE expo China 2023 covers all high potential sectors of the environmental market:

Annually

Good reasons to exhibit

- Guarantor of quality: 50-year track record of the parent show IFAT in Munich and 20 years of experience in the Chinese market.
- Excellent business and networking platform: contact to top experts, opinion leaders and decision-makers to develop national and international business.
- Strong support: the Chinese government, international organizations, and major industry associations officially endorse the event.
- High-quality supporting program: share and discuss the current issues of the environmental protection industry at the event's conferences, conventions and sub-forums.

SUPPORTING PROGRAM

IE expo China Environmental Technology Conference is a major concurrent event of IE expo China, which has been held successfully every year since 2013. With the summit as the core, the conference has several theme sub-forums, inviting industry leaders, technical experts, and scientific research scholars to share and discuss the current issues of the environmental protection industry. It is the ideal platform for participants to develop business, exchange idea and network with global environmental experts.
